3 pages (MDOT Forms not counted) (No Resumes)	7 pages (MDOT Forms not counted)	19 pages (MDOT Forms not counted)	Total maximum pages for RFP not including key personnel resumes	

REQUEST FOR PROPOSAL

The Michigan Department of Transportation (MDOT) is seeking professional services for the project contained in the attached scope of services.

If your firm is interested in providing services, please indicate your interest by submitting a Proposal, Proposal/Bid Sheet or Bid Sheet as indicated below. The documents must be submitted in accordance with the latest "Consultant/Vendor Selection Guidelines for Service Contracts" and "Guideline for Completing a Low Bid Sheet(s)", if a low bid is involved as part of the selection process. **Referenced Guidelines are available on MDOT's website under Doing Business > Vendor/Consultant Services > Vendor/Consultant Selections.**

RFP SPECIFIC INFORMATION

BUREAU OF HIGHWAYS

BUREAU OF TRANSPORTATION PLANNING **

OTHER

THE SERVICE WAS POSTED ON THE ANTICIPATED QUARTERLY REQUESTS FOR PROPOSALS

NO

YES

DATED _____ THROUGH _____

Prequalified Services – See page ____ of the attached Scope of Services for required Prequalification Classifications.

Non-Prequalified Services - If selected, the vendor must make sure that current financial information, including labor rates, overhead computations, and financial statements, if overhead is not audited, is on file with MDOT's Office of Commission Audits. This information must be on file for the prime vendor and all sub vendors so that the contract will not be delayed. **Form 5100J is required with Proposal for firms not currently prequalified with MDOT**

Qualifications Based Selection – Use Consultant/Vendor Selection Guidelines

For all Qualifications Based Selections, the section team will review the information submitted and will select the firm considered most qualified to perform the services based on the proposals. The selected vendor will be contacted to confirm capacity. Upon confirmation, that firm will be asked to prepare a priced proposal. Negotiations will be conducted with the firm selected.

****For RFP's that originate in Bureau of Transportation Planning only**, a priced proposal must be submitted at the same time as, but separate from, the proposal. Submit directly to the Contract Administrator/Selection Specialist, Bureau of Transportation Planning (see address list, page 2). The priced proposal must be submitted in a sealed envelope, clearly marked "**PRICE PROPOSAL**." The vendor's name and return address **MUST** be on the front of the envelope. The priced proposal will only be opened for the highest scoring proposal. Unopened priced proposals will be returned to the unselected vendor(s). Failure to comply with this procedure may result in your priced proposal being opened erroneously by the mail room.

For a cost plus fixed fee contract, the selected vendor must have a cost accounting system to support a cost plus fixed fee contract. This type of system has a job-order cost accounting system for the recording and accumulation of costs incurred under its contracts. Each project is assigned a job number so that costs may be segregated and accumulated in the vendor's job-order accounting system.

Qualifications Review / Low Bid - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions for additional information.

For Qualification Review/Low Bid selections, the selection team will review the proposals submitted and post the date of the bid opening on the MDOT website. The notification will be posted at least two business days prior to the bid opening. Only bids from vendors that meet proposal requirements will be opened. The vendor with the lowest bid will be selected. The selected vendor may be contacted to confirm capacity.

Best Value - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions below for additional information. The bid amount is a component of the total proposal score, not the determining factor of the selection.

Low Bid (no qualifications review required - no proposal required.) See Bid Sheet Instructions below for additional instructions.

BID SHEET INSTRUCTIONS

A bid sheet(s) must be submitted in accordance with the "Guideline for Completing a Low Bid Sheet(s)" (available on MDOT's website). The Bid Sheet(s) is located at the end of the Scope of Services. Submit bid sheet(s) separate from the proposal, to the address indicated below. The bid sheet(s) must be submitted in a sealed manila envelope, clearly marked "**SEALED BID**." The vendor's name and return address **MUST** be on the front of the envelope. Failure to comply with this procedure may result in your bid being opened erroneously by the mail room and the bid being rejected from consideration.

GENERAL INFORMATION

Any questions relative to the scope of services must be submitted by e-mail to the MDOT Project Manager. Questions must be received by the Project Manager at least four (4) working days prior to the due date and time specified above. All questions and answers will be placed on the MDOT website as soon as possible after receipt of the questions, and at least three (3) days prior to the RFP due date deadline. The names of vendors submitting questions will not be disclosed.

MDOT is an equal opportunity employer and MDOT DBE firms are encouraged to apply. The participating DBE firm, as currently certified by MDOT's Office of Equal Opportunity, shall be listed in the Proposal

MDOT FORMS REQUIRED AS PART OF PROPOSAL SUBMISSION

5100D – Request for Proposal Cover Sheet

5100J – Consultant Data and Signature Sheet (Required only for firms not currently prequalified with MDOT)

(These forms are not included in the proposal maximum page count.)

Michigan Department of Transportation
SCOPE OF SERVICE
FOR
AS NEEDED CONSTRUCTION SERVICES
Technical Assistance

CONTROL SECTION(S): Various

JOB NUMBER(S): Various

PROJECT LOCATION(S): Arenac, Bay, Saginaw, & Tuscola Counties

DESCRIPTION OF WORK:

Provide services to perform to the satisfaction of MDOT all duties for road and bridge construction work which may include work to close projects out (“finaling”) after construction in accordance with MDOT specifications, publications, and accepted practices. Services will be performed on various projects throughout 2012 as directed by the Project Engineer Manager.

The employee submitted for the Technical Assistance position shall be dedicated for the entire construction season if selected. The estimated amount of time per week for this work is between 16 and 24 hours, but will vary, and overtime may be necessary.

This solicitation will result in the selection of one firm.

See **Attachment A** for the list of construction projects in the Bay City TSC area that will require “as-needed” services. The “as-needed” services may also be needed on past construction projects as requested by the Project Engineer Manager. The information on **Attachment A** was compiled with the most current data at the time of solicitation and is subject to change.

ANTICIPATED START DATE: March 1, 2012

ANTICIPATED COMPLETION DATE: March 31, 2013

PRIMARY PREQUALIFICATION CLASSIFICATION:
Technical Assistance

SECONDARY PREQUALIFICATION CLASSIFICATION:
N/A

DBE REQUIREMENT:
N/A

MDOT PROJECT MANAGER:

Louis J. Taylor, P.E.
Bay City Transportation Service Center (TSC)
2590 East Wilder Road
Bay City, MI 48706
Phone (989) 671-1555
Fax (989) 671-1530
Email: taylorl7@michigan.gov

The Consultant shall contact the Project Manager prior to beginning any work on this Project.

CONSULTANT RESPONSIBILITIES:

The Consultant's principal contact with MDOT shall be through the designated Project Engineer Manager.

The Consultant agrees to demonstrate the knowledge and perform in compliance with the standard construction practices of MDOT; the project specific construction contract, proposal, and plans; the Standard Specifications for Construction and all applicable publications referenced within; the Michigan Construction Manual; the Material Sampling Guide; the Materials Quality Assurance Procedures Manual; the Density Control Handbook and any other references, guidelines, and procedures manuals needed to carry out the work described herein in an appropriate manner.

Perform full time experienced Technical Assistance services as needed on various projects and perform Technical Assistance services under the direction of the Project Engineer Manager. The Technical Assistance assigned to this project will report and be directly responsible to the Project Engineer Manager who is in charge of the project construction.

The Consultant will immediately bring to the attention of the MDOT Project Engineer any failure by the Contractor to comply with any documentation requirement, any problem, trends toward borderline compliance, or any occurrence which may require resolution.

The Consultant shall provide their own transportation to, from, and on the project site to perform the services outlined herein. Work may require occasional travel to the project sites.

The Consultant shall wear personal safety equipment in accordance with MIOSHA and MDOT requirements and practices while on the project site.

The Consultant shall attend all project related meetings, when directed by the Project Engineer Manager.

All overtime for the Consultant must be authorized by the Project Engineer Manager prior to the start of the work by the Consultant.

MDOT RESPONSIBILITIES:

The Project Engineer Manager will provide the Consultant with the Field Manager software and a computer at the Bay City TSC site, and the standard office supplies and equipment for the services required.

The Project Engineer Manager shall furnish to the Consultant all project specific construction proposals, plans, plan revisions, written instructions, report forms, other information and/or data deemed necessary for the services required herein.

CONSULTANT PAYMENT:

Compensation for this project shall be on an **actual cost plus fixed fee** basis. This basis of payment typically includes an estimate of labor hours by classification or employee, hourly labor rates, applied overhead, other direct costs, subconsultant costs, and applied fixed fee.

All billings for services must be directed to MDOT and follow the current guidelines. The latest copy of the "Professional Engineering Service Reimbursement Guidelines for Bureau of Highways" is available on MDOT's website. This document contains instructions and forms that must be followed and used for billing. Payment may be delayed or decreased if the instructions are not followed.

Payment to the Consultant for services rendered shall not exceed the maximum amount unless an increase is approved in accordance with the contract with the Consultant. Typically, billings must be submitted within 60 days after the completion of services for the current billing. The final billing must be received within 60 days of the completion of services. Refer to your contract for your specific terms.

Direct expenses, if applicable, will not be paid in excess of that allowed by MDOT for its own employees in accordance with the State of Michigan's Standardized Travel Regulations. Supporting documentation must be submitted with the billing for all eligible expenses on the project in accordance with the Reimbursement Guidelines. The only hours that will be considered allowable charges for this contract are those that are directly attributable to the activities of this project.

The use of overtime hours is not acceptable unless prior written approval is granted by the MDOT Region Engineer/Bureau Director and the MDOT Project Engineer Manager. Reimbursement for overtime hours that are allowed will be limited to time spent on this project in excess of forty hours per person per week. Any variations to this rule should be included in the priced proposal submitted by the Consultant and must have prior written approval by the MDOT Region Engineer/Bureau Director and the MDOT Project Engineer Manager.

The fixed fee allowed for this project is 11.0% of the cost of direct labor and overhead.

The hours provided are only an estimate. The Consultant will be reimbursed a proportionate share of the fixed fee based on the portion of the authorized total hours in which services have been provided to MDOT. Fixed fee on "as needed" projects is computed by taking the percent of actual labor hours billed to labor hours authorized, then applying that percentage to the total fixed fee authorized.

MDOT reserves the right to request services on other projects located in the Region/TSC area that are not listed on Attachment A, under the conditions of this "as needed" scope of services.

Full time services may not be required on all projects at all times. This scope is for “as needed” services, based on the intermittent needs of MDOT. I must be noted that this is not a guarantee that MDOT will use the Consultant’s services.

The hours billed for inspectors will not begin until the inspectors report to the project site or to the project office.

ATTACHMENT A

1. 06073-111062A
Scope of Work: Bridge rehabilitation and approach work US-23 over the Whitney Drain, Arenac County.
2. 06111-89615A
Scope of Work: Bridge rehabilitation and approach work on Sterling Road over I-75, US-23 Ramp F over I-75, and US-23 EB over M-13, Arenac County.
3. 09033-84909A
Scope of Work: Bridge replacement on M-13 over Johnson Creek, Bay County.
4. 09101-113458A
Scope of Work: 12.045 miles of overband crackfill, single chip seal, and single course micro-surface on EB US-10 from east of Bay City Road to west of Reinhardt Avenue, Bay County.
5. 73063-110429A
Scope of Work: Articulating concrete block floor system, rip rap, channel cleanout, and plugging weep holes on M-46 over Blumfield Creek, Saginaw County.
6. 73111/73112-87509A
Scope or Work: Reconstruction with median barrier wall on I-75 from Janes Road to the south abutment of the Zilwaukee Bridge and from the north abutment of the Zilwaukee Bridge to south of the I-675 north interchange, Saginaw County.
7. 73111-88245A
Scope of Work: Bridge replacement, slope paving, and approach replacement on Janes Road over I-75, Saginaw County.
8. 73111-112772A
Scope of Work: HMA overlay, substructure repair, full painting, and concrete surface coating on Wadsworth Road over I-75, Saginaw County.
9. 73900-105391A
Scope of Work: Signal modernization work at 19 locations, Saginaw County.
10. 73999-109601A
Scope of Work: 2.2 miles of non-motorized path construction from south of Ederer Road to north of M-46, Thomas Township, Saginaw County.
11. 73999-113114A
Scope of Work: 2.8 miles of non-motorized path construction from north of McCarty Road to north of Titabawassee Road, Kochville & Saginaw Townships, Saginaw County.
